

ROHIT

Full Stack Engineer | Web • Mobile • Backend • Cloud

Sonipat, Haryana, India | +91-62398 69677 | kunaldahiya1539@gmail.com

PROFESSIONAL SUMMARY

Full Stack Engineer with 5+ years of hands-on experience building production web and mobile applications as a freelancer and in earlier product roles. Strong in Laravel/PHP, React.js, Python, REST APIs, SQL, Android, AWS, and Linux. Proven end-to-end ownership — requirements through deployment and client delivery. Eager to apply these skills at Thinkerbell Labs to build reliable platforms that power accessible education technology for visually impaired learners and create meaningful social impact.

TECHNICAL SKILLS

Frontend	React.js, HTML5, CSS3, JavaScript, Responsive UI, Component-driven development
Backend	Laravel, Core PHP, CodeIgniter, Python, C#, Web APIs, RESTful services
Mobile	Android Studio (Java/Kotlin-capable), iOS familiarity, Cross-platform delivery
Databases & Cloud	SQL Server, MySQL/PostgreSQL-style RDBMS, AWS (Amazon Web Services), Linux administration
Practices	Project Management, Client Handling, Git, API design, Backend support, Software support

PROFESSIONAL EXPERIENCE

Full Stack Developer (Freelance)

[Independent](#) | [Remote](#)

June 2021 – Present

- Designed, developed, and delivered multiple full-stack products for clients, covering frontend, backend, mobile, and deployment.
- Owned the complete lifecycle: requirement gathering, architecture, coding, testing, client communication, and production support.
- Built REST APIs, admin panels, and user-facing interfaces; integrated third-party services and managed cloud resources on AWS.
- Handled client relationships, timelines, and iterative feature delivery in a self-managed environment.

Software / Product Roles

[The Imagination World](#) | May 2020 – June 2021

- Contributed to web and application development, backend support, and project delivery in a product-oriented setting.

[The Red Carpet](#) | September 2019 – February 2020

- Early professional experience in software support, development tasks, and client-facing responsibilities.

KEY PROJECTS

FilmyBooks — Movies, Web Series & Live TV Streaming Platform

Tech: [Android Studio](#) + [Laravel](#) | Role: [Full Stack Developer](#)

- Built a complete streaming application with Android client and Laravel backend for movies, web series, and live TV.
- Implemented content management, user authentication, streaming endpoints, and admin functionality.
- Delivered a production-ready product handling media delivery and user engagement features.

Insta Grocers — Grocery Home Delivery Application

Tech: [React.js](#) | Role: [Frontend](#) / [Full Stack Developer](#)

- Developed a responsive grocery ordering and home-delivery web application using React.js.
- Focused on clean component architecture, state management, and seamless user experience for ordering flows.

Fine11 — Fantasy Cricket & Football Platform

Tech: [Full Stack \(Web + Backend\)](#) | Role: [Developer](#)

- Contributed to a fantasy sports platform covering cricket and football, including game logic, user features, and backend services.
- Worked on real-time or near-real-time aspects typical of fantasy sports products and multi-user systems.
